A New Decade with a New President
A Season of Growth

Throughout each experience in our lives, we encounter change. Change is good, we are told, even when it sets us back. We have all seen the amazing advancements in medical technology just within the limited amount of time we spend here at MCV. This is change, and it is good. We are the witnesses of and the life of what occurs or doesn't occur here.

With the changing of seasons, we see growth, development, and death. This yearbook is dedicated to the efforts of each student and faculty to experience, explore, and live their individual growth. It is my hope that it accurately represents your life here.
As a new semester brings the end to our summer fun, some of us find studying a motivational dilemma. Not much longer, and you’ll have dances, parties, games, tests, exams, and aahhhhhhh graduation. There are many things to come. So, c’mon in, the water’s warm, and enjoy reminiscing your 1990-1991 school year at MCV.

Various health professionals enjoy lunch time in the Sanger Hall courtyard.

Friendship Spans All Seasons

True Friend

A true friend is the kind of friend that makes life more worthwhile, One who brightens the day for us with just a word or smile, Someone with whom we can discuss the special things we’ve planned or just keep silent knowing our friend will understand. A true friend is always glad for us when misfortune turns the tide, A true friend is always there. To lend a hand, to ease the hurt, to council or defend, How good life is in giving us the gift of a true friend! (submitted by O.T. 1991 student)
We showed our commitment to the community by sponsoring a benefit for the homeless in Richmond at Tredegar Ironworks.

Following the benefit, SGA President, Carol Radmore, presented the Daily Planet with a check representing the money raised at the benefit.

We’re a very social group

Bands were furnished by our social chairman, Kelly Osborn, for many of our SGA parties. Here, we’re celebrating BS & M style.

According to Funk and Wagnalls, dance is “to move the body and feet rhythmically, especially to music. To move or skip excitedly; quiver, as from excitement or emotion. To bob up and down; move about lightly and quickly”. Here, MCV students demonstrate this age old tradition.
Partying comes easy after a long week of classes!

Stop crying, there's more beer in the keg! (Senior nursing student Tammy Conn)
What's the reason for this season? For most of us, it means a month of vacation... from school, at least. Now that's reason enough to celebrate... and we did!

Dentistry 1991 students (John Williams, Jim Lupi, Jose Matos, and Craig Levine) celebrate Christmas.

Joseph Mullaney (Medicine 1992) gets into the spirit of Christmas by decorating himself.

The Occupational Therapy class of 1991 students struggle as the "ground" team to keep their peers safe and secure on the 32-foot high-wire course at the Psychiatric Institute of Richmond. Kenneth Gant towers above his classmates on the "ESCAPE TO REALITY" course at the Psychiatric Institute of Richmond. The Occupational Therapy class went there to experience this course designed to build group trust, increase interactions with others, and increase self esteem. Each student experienced climbing up to the 32-foot high lines, walking across, and then falling off. This requires trust from the ground team who is controlling and supporting them with numerous cables and ropes.

Thanks to the following:

Mom and dad for raising me under your roof and teaching me that I could do anything.

Scott for being the best big brother with strong arms to hug.

Tammy Conn for not only helping in the design, layout, skitwork, and headaches of the yearbook, but remaining my best friend and roommate throughout the whole experience.

Kate Culver for being creative and when we were about to lose our minds, your calm gentle ways brought back stability.

Lisa Dean for all the late night trips to my place for to help with layouts, photo’s, and advice.

Mr. Miller for supporting me throughout the X-Ray experience, even when you had no idea what I was doing.

Linda Bohannon for giving me rooms in Sanger for photos.

Jean Lynn for taking all these pictures and being available at my convenience.

photographers for providing your class and school with the meat of the book that will represent the years you are here.

MCV students for giving me the opportunity to represent the years 1990-1991 by editing the X-Ray.

You all are terrific!
